DigiComp Update – December 2016

We are pleased to announce the Kansas Division of Workers Compensation has partnered with CapTech Ventures Inc. to build and implement our new information system. CapTech brings deep knowledge and proven experience in designing and implementing robust and forward-thinking workers compensation systems. They have had successful implementations in the states of Nevada, Virginia, Missouri, Kentucky, Georgia, Iowa and others. KDOL Division of Workers Compensation will leverage CapTech's in-depth knowledge of workers' compensation systems and significant application development experience to deliver a new, dramatically enhanced application for Kansas.

The top five names for the Workers Compensation software for phase two were selected by the steering committee from 27 submissions. Staff will have the opportunity to select their preferred name through survey monkey from Dec 8 through Dec 31 staff will have the opportunity to select the name of the software. Go to https://www.surveymonkey.com/r/255Y3VB. The winning name will be announced at the first of the New Year. The winner will be included in the Employee of the Month Award Nominees for January.

Once the name for the software has been selected, the DigiComp phase will be completed. The second phase of the system modernization project will begin with a new name and logo.

The DigiComp Communications Team will continue to provide monthly updates of the status of the project and details regarding the new system.

We welcome any questions or input, which can be sent to digicomp@dol.ks.gov.
